It does greatly depends on how well this car was taken care of by past owners, like just about every old car. I got my Galant and it needed multiple replacement parts, which i expected some work to be needed, it was a bit more than what i thought it would be but that was my fault for going off the word of a friend and not getting it thoroughly inspected by someone i knew i could trust. I replaced the alternator, belts, battery, all 4 tires, and had to replace the starter twice my fault. Also the brake pads needed replacing and I had to replace one entire front brake system because it had been previously put on backwards After all of this, however, it runs and performs like a champ and is surprisingly effficent for its age. I happen to love my car and now that I spent time and money on it it does everything i need it to do and I dont have to worry about payments and just basic matinence. It is of course not perfect and I consider this car average but it will take good care of you if you take care of it. It makes for a good first car to teach car maintenance on, i learned alot from being made to replace several of my parts myself with my dads supervision to make sure i didn't screw it up. All in all I do enjoy this car for my "first" car that i have kept for 4 years, and plan on keeping through college. I been having my mitsubish for 5 years best car I ever had it dont want die. I enjoy this car. Great car, comfortable, cheap parts,. I fixed problems with fuses. See all reviews. Photos Previous page. Next page. There's a problem loading this menu right now.
