The Costa del Sol on the south coast of mainland Spain , has always been a favourite destination for the sun-seeker. There are wonderful sandy beaches, and a wide variety of resorts to choose from. The main season for the Costa del Sol translates to coast of the sun, or sun coast runs from May through to the end of October. You can travel there during the winter months, with the days still providing a welcome break from the cold. With so many luxury hotels to chose from in the Costa del Sol, we have selected just a few to show you some of the tasteful, and sumptuous hotel rooms where you can relax and unwind. Some rooms will have view of the golf courses or lake. This 5-star luxury hotel is also quite small in comparison with other hotels in the area, with just rooms and suites, located over 7 floors. Situated on a sand and pebble beach, the hotel does offer lovely Mediterranean views. Rooms range from a classic double room to the Royal suite. The largest of the suites is the Los Monteros suite at 66m with the same facilities. This 5-star grand luxe hotel is in the resort of Guadalmansa, just beside a long sandy beach. The hotel offers guests retreat areas for self-care and personal reflection. There is a lovely pool area as well as relaxation and wellness, cleanse and detox, and other care programmes. With just 55 suites, this is certainly a place to get away from it all. Each of the luxury rooms and suites are light and spacious and each comprise complimentary WiFi, teach and coffee service, sea or garden view, bathroom with separate bath and shower, mini bar. There are another 7 room upgrades until the top room of the Presidential suite. There is a spacious bedroom and bathroom, separate living room and a furnished balcony overlooking the Mediterranean. A luxury hotel with traditional Andalusian architecture. There are manicured gardens, spa treatments, pools, and a beach club. The hotel is just 67 spacious rooms and all feature 4m high ceilings! It offers marble bathroom with bath, walk-in rain shower, private patio or terrace, luxury amenities, flat screen TV, internet, and safe. Next are the executive suites, family suites, pool suites and then the Cortesin suite as featured in the photo below. You will have a stunning lounge area, separate bedroom and a sizeable marble bathroom â€" again with bath and walk-in rain shower. Additional to the suites, are 2 villas with private pools. If you are looking to be completely independent, but also have the benefits of being within a hotel, then perhaps one of the villas would be ideal for your stay. Of course, there are many more luxury hotels in the Costa del Sol, and we will shortly be brining you details on those that can be found in the main city of the region â€" ie Malaga. Corona Holidays are specialists in tailor-made holidays to the Canary Islands, Balearic Islands, and European city breaks. Such an easy flight to Malaga, well under 3 hours from London, then you can walk to the train and easily get along the coast. So good for weekend breaks or longer. One December I can remember being in the hotel pool with the sun setting behind the palm trees â€" knowing that it was frosty back in the U. Some fantastic hotels here to choose from. Thanks Eileen. Sounds wonderful to be in a hotel pool at the moment â€" hopefully very soon though! I fear that many travellers to the Costa del Sol arrive at the airport and then immediately head west. I look forward to reading your piece on Malaga. Good point Valerie. Oh, so many destinations to see. My wife likes to wile away some hours in a serene spa but is in no hurry to have another Thalasso treatment and I always willing to try the local golf courses. Too hard to make a decision. Thanks Tim. I remember spending an evening in Marbella and had some lovely fish down by the marina. Many an hour was spent there enjoying some wonderful fresh seafood where the locals would go and eat. Oh, to travel again.

The photographers at Del Sol are so much more than photographers. From the very first contact with them which was months before our wedding and well before we hired them they were a wealth of help not just for photo purposes but helpful with advice on helping with issues that arose with our destination wedding, recommendations for excursions. Very knowledgeable in the wedding industry. They all are very personable and you feel like friends. GREAT communication! Response time is pretty much immediate or within 24 hrs. The photos I included are just the sneak peeks that they sent us while they finish working on the rest of the photos Top notch

service, magical experience. The team at Del Sol were amazing to work with. They took my ideas and vision for an event and spun it out into something completely custom, brainstorming and adding details to bring the intention and feeling to life. Leading up to the day, the team was incredibly responsive and easy to work with--even though I was planning from afar, I never had to worry that I was in great hands. On the day of, everything was handled--the event was magical and the photoshoot was easy and natural--I haven't seen many photos yet but from what they showed me turning around the camera, they are going to be incredible!!! I highly recommend entrusting this team with something special--be that a trash the dress, a vow renewal, or something no one has done before! After hundreds of searches for good photographers in Playa Del Carmen, we kept coming back to the Del Sol website. We loved the quality of their work and the great reviews from prior clients. She made us feel very comfortable. We are looking forward to having Polly and her Del Sol team work their wonders on our big day June I I had a 5 star experience across the board. Their communication was on point and made me feel at complete ease. They are so thorough and i believe it was Polly that i communicated with. I cant wait to see my photos!!! From the very beginning, my experience with Del Sol was great. All of my emails were answered promptly and with professionalism. I had a lot of questions and they answered everything with detail. On my wedding day, Debora showed up and was a ball of energy, creative ideas, and put us at ease. Everywhere we went around the resort, Debora would find an interesting angle or a light to use for a creative picture. The time flew by so fast, I almost regret not having more time booked with her! I can't wait to see the photos, I know that she captured some great shots. From the moment I had inquired the service has been exceptional. The staff are so easy to communicate and work with, this was by the far the easiest part of my wedding. Ael was great with communication and even gave me a phone call during the booking process. I also worked with Marco from the Del Sol team and he has been fabulous. It really eased my nerves to speak to someone on the phone. We had Jorge and Andres for 7 hours and we even had them stay an extra hour that night because we wanted to capture as many pictures as possible. Jorge and Andres were snapping shots immediately upon arrival and all the way until the end of the night. The price may seem steep at first when you are looking but, I promise they are well worth the cost. I haven't seem my pictures yet but I know and trust that they will be outstanding. You will not regret hiring Del Sol for your event! Del sel photography far exceeded our expectations. We dreamed of unique, romantic, sexy, and professional photography and they delievered that and MORE! Their professonalism, resposiveness, efficency, and personable personalities delievered nothing but the best quality service we could have imagined! We allowed them to take full reign of our photos and they delievered AMAZING quality and the most unique photos we could have asked for. They handled our large family so well and everyone loved them! We asked for natural photos of captured unforgettable moments and they did that and more! Polly joined us for our trash the dress cenote and beach session and she was absolutely amazing! Such a great imagination and creative style that delievered the romantic and sexy photos we imagined. She was personable and made us smile the entire time! She got down and dirty in the sand and just as soaking wet as we did in the cenotes! We love you guys and send SO many thank yous and would recommend you time and time again!!! Very unique photography! The best!! I couldn't be more pleased with every single shot that was captured, the little moments and the big moments they don't miss a thing. Loved that you get a second photographer so that nothing is missed. Martina and Marina were wonderful! They captured the most special moments and all my pictures turned out beautiful. All of my guests were very impressed with their creative ways to capture light and angles. The pictures turned out spectacular and I am so happy I picked Del Sol to be there with us on our wedding day. I will recommend them to anyone. They were always very responsive to my questions and actually helped me make decisions about the ceremony based on their experience. There is not one thing that could have been done better. I am very impressed with their professionalism and the pictures are priceless! Great photography, extremely creative you will not be disappointed with Deborah her work is amazing! Thanks to del so for capturing our special day we have memories that will last a lifetime. We honestly couldn't have picked a better photographer. Del Sol was so friendly and responsive from the first day we contacted them. On the wedding day, they were to pleasant to have there and you can tell they truly enjoy their craft. They are professionals to the max and they captured our memories so amazingly. We can't recommend them enough! All I can say is Debora shot my wedding and was absolutely great!! The whole del sol team is fantastic and I would hire them again in a second! There was so much flexibility on the day of the wedding and Debora did some very creative shots which I love!!! I can't say enough about Del Sol! Del Sol Photography was one of the main reasons why we chose to have a destination wedding in Riviera Maya, Mexico! We've visited the region 3 times prior but during those trips, we had no idea that it

would be our future wedding backdrop! Once we found del sol, there was no turning back. We fell in love with all their photos and knew we had to hire them to capture our wedding. Not only do they specialize in wedding photography, they have a special niche in TTD underwater photos. Their photos are incredibly unique and completely magical. Everyone we encountered who were part of the Del Sol team were absolutely phenomenal. The communication was within 24 hours and always extended recommendations whenever we need it's quite difficult to plan a destination wedding without knowing all the ins. They are a great team and we were even starstruck to have the chance to work with such talented photographers! Knowing we were among award winning photographers, we wanted to try being great subjects. Anything Matt and Sol wanted us to do, we did. The photos explain why! We brought along our gnome figurine which was part of our proposal, somehow it floated away in the cenote but Matt went back the following day and found it and even delivered it back to our resort! They honestly made our day even more fun! We absolutely love the photos! I guarantee you won't regret it!! We had Juan as our photographer and her photographed 3 different events during our wedding. We were able to do our trash the dress, rehearsal party and wedding with him! Hi is super friendly and up beat which really helps because my husband are shy. He helped us loosen up and just have fun! Working with Ael during the booking process was so easy. I got a few checking in phone calls which is so nice an reassuring. They have wonderful client website set up which makes payments and account info easily accessible at all times. I am still waiting on my pictures but Juan did show me a few unedited ones and they were already amazing so i am so excited to see the edited versions! They are amazing and definitely worth every penny i spent. They were all very nice and fun yet professional and made me feel comfortable during the trash the dress shoot. Pricey but definately worth it! A spectacular team of photographers! We knew Del Sol Photography would be amazing to work with, but even those high expectations were surpassed beyond anything we had ever imagined!!! I will recommend Del Sol Photography to anyone and everyone who will listen! I already thanked the team Del Sol. Now I want to share my experience with brides who are considering hiring these photographers. I know that for us brides who are not Mexico is very difficult to choose a good professional, we do not know for sure local customs. Good and bad professionals exist throughout the world. I was very lucky to have chosen Jorge and Melissa. I am deeply grateful! The photos were spectacular! But all the staff is excellent. Their service, from contract signing to delivery of the pendrive is amazing, exceeds expectations. They were attentive, professional, caring and capricious to the smallest detail! For the service to be good, not enough to have good photographers, you need customer service, be patient with anxious and insecure brides, seriousness, punctuality, organization and of course love. Finally, the Del Sol team unites good quality of service and love for what you do! I recommend, if someone wants to ask a question for facebook Schella Schonardie can do my English is not very good, but I think we can communicate. Do not save on registering your unique moment. After all, besides the memories in your head, artistic photos will be what will you always remember the magic moment wedding. Really worth every penny! Scheila and Andre. Olga Z. Great choice for unique locations. High-quality photography was at the top of our wedding priority list, so we spent a long time looking at portfolios of photographers in the Riviera Maya. There were many options cheaper than Del Sol, but we ended up coming back to them again and again because of how impressed we were with the consistent quality of their work. Since our ceremony and reception were both in unique locations with limited light, we knew we needed someone extremely experienced to get amazing shots. Going through the various portfolios at Del Sol, we were having a hard time choosing the primary photographer, and the final decision came down to Valeria and Polly. We ended up choosing Valeria, so we were quite excited that Polly was assigned to be our second photographer! They were both fantastic to work with - very pleasant and friendly, super creative with the shots, angles, and poses which ended up looking marvelous in the final photographs. They were not afraid to get dirty and jump around in the water to get us great pictures - and the dedication shows in the final images. Whatever photographers you go with, we highly recommend choosing a package with two photographers - there is no way we would've captured some of our favorite moments without them both there. Our final photos are a joy to look at. Some of them are works of art. We're very happy we selected Del Sol to capture them for us. Please note that when you sign the contract with DelSol, you are signing away any rights to your most personal memories. I did sign the contract giving away the rights to my photos, because I was rushed planning for my destination wedding, and I should have thought of the implications before I signed. We had a small wedding party in a remote location for that exact reason. We wanted our wedding to be private and special, not to be on display for the world to see. It may be cheaper to fly a world class photographer from the U. I understand photographers need their products for advertisement purposes, but there are many people who DO want their photos all over the

internet and social media. Del Sol has plenty of those already. I will add that the photos were great, but now each time I look at them, I recall this whole incident. Log in Join now.
